

QUARTERLY NEWSLETTER

It has been a memorable time for broadcast with the record-setting World Cup here in the Americas. Whether or not your favorite team won, it did bring the world together for a brief moment.

As we approach the end of a historic summer, the eMAM team is excited about:

- A new combined solution with our partners PlayBox Neo and SNEWS
- Combined intelligent archive with XenData
- Combined marketing with Imagine Communications Nexio
- Improvements in on-prem eMAM Next, with more to come...

We hope to see our customers and partners in the upcoming fall trade shows and online events.

Version Update Announcement

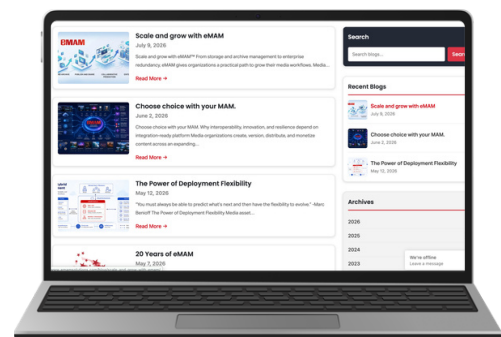

Big news from the eMAM team: version 6.1 is on its way, and you'll get your first look at IBC 2026! We're bringing the beta release of EMAM 6.1 to Amsterdam this year, with a fresh set of tools and workflow improvements built directly from customer feedback. If you're attending IBC, stop by our booth (Booth 6.A20) to see it in action and share your thoughts before the official launch. More details on what's new are coming soon!
